WIRELINE COMPETITION BUREAU ANNOUNCES SELECTION OF CYBERSECURITY PILOT PROGRAM PARTICIPANTS AND PROVIDES ADDITIONAL INFORMATION REGARDING PROGRAM REQUIREMENTS

WC Docket No. 23-234

By this Public Notice, the Wireline Competition Bureau (Bureau) announces the selection of 707 eligible schools, libraries, and consortia of eligible schools and libraries to participate in the Schools and Libraries Cybersecurity Pilot Program (Pilot Program or Pilot) to receive up to \$200 million in support.¹ Consistent with the Pilot Program's goals and the Federal Communications Commission's (Commission or FCC) directives to the Bureau and the Universal Service Administrative Company (USAC),² the participants selected as part of the Pilot represent a diverse cross-section of large, small, urban and rural schools, libraries, and consortia from across the nation, with an emphasis on those with the greatest need and Tribal entities.³ In addition, as discussed below, we provide further information and instruction to Pilot participants regarding the requirements for competitive bidding and completing and submitting Part 2 of the Schools and Libraries Cybersecurity Pilot Program Application (FCC Form 484); requests for funding; invoicing; and the initial, annual, and final reports.⁴ The data gathered from the Pilot will help

¹ See generally *Schools and Libraries Cybersecurity Pilot Program*, WC Docket No. 23-234, Report and Order, FCC 24-63, 2024 WL 3010578 (WCB June 11, 2024) (*Cybersecurity Pilot Program Report and Order*). Selected Pilot participants are listed in Appendices A and B. To the extent an applicant is not listed in the appendices, that applicant has not been selected to participate in the Pilot Program and will receive a notice from USAC explaining the reason(s) for not having been selected to participate in the program. Notwithstanding, as further discussed herein, should, for example, a participant listed in either Appendix A or B withdraw or be removed from the Pilot, the Bureau will first increase Appendix B participants' budgets up to the full budget amount as available funds permit and then make every attempt to replace that participant with an applicant that was not selected, consistent with section 54.2001(d) of the Commission's rules and its directives regarding the methodology and factors to be considered in making Pilot participant selections. See also *infra* Pilot Participant Withdrawal. All selected participants must remain in compliance with the Pilot rules and requirements and may be removed from the Pilot if it is later determined they are not eligible or not compliant with the Commission's rules.

² USAC is the designated administrator of the Pilot Program. See *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *40, para. 88.

³ *Id.* at *29, *31-32, *44-45, paras. 66, 70, 72-73, 101-06.

⁴ We expect to continue to provide updates and further information about these and other requirements through the FCC's Cybersecurity Pilot Program website and FAQs, as well as through USAC's Cybersecurity Pilot Program webpage, trainings, and other outreach materials. We encourage participants to regularly make use of these and other resources. See FCC, *Schools and Libraries Cybersecurity Pilot Program*, <https://www.fcc.gov/cybersecurity-pilot-program> (last visited Jan. 8, 2025); FCC, *Cybersecurity Pilot Program FAQs*, <https://www.fcc.gov/cybersecurity-pilot/frequently-asked-questions> (last visited Jan. 8, 2025); USAC, *Cybersecurity Pilot Program*, <https://www.usac.org/e-rate/cybersecurity-pilot-program/> (last visited Jan. 8, 2025).

the Commission evaluate whether, and to what extent, it should use the Universal Service Fund (USF) to support the cybersecurity needs of eligible schools and libraries going forward.

Background

On June 6, 2024, the Commission adopted a three-year pilot program, funded through the USF, to provide up to \$200 million to eligible schools, libraries, and consortia of eligible schools and libraries to defray the costs of eligible cybersecurity services and equipment and to provide the Commission with data to better understand whether and how universal service funds should be used to support the cybersecurity needs of schools and libraries on a permanent basis.⁵ Participation in the Pilot is open to schools, libraries, and consortia of schools and libraries that meet the E-Rate program's eligibility requirements.⁶ However, a program applicant need not be a current or former E-Rate program applicant in order to be eligible to apply for the Pilot.⁷

To be considered for participation in the Pilot, prospective applicants were first required to provide basic information about their cybersecurity needs, experience, and plans to use the funding if selected. Applicants were required to complete Part 1 of FCC Form 484 and submit through USAC's Cybersecurity Pilot Program portal during the filing window⁸ from September 17, 2024 through November 1, 2024.⁹ The Commission received 2,734 applications from schools, libraries, and consortia of schools and libraries requesting an estimated \$3.7 billion in funding.¹⁰ Applicants spanned all 50 states, Puerto Rico, and the District of Columbia. Approximately 93% of applications were from schools and school districts, 4% from libraries and library systems, and 3% from consortia.

From this broad applicant pool, as delegated by the Commission, the Bureau has selected participants for the Pilot Program consistent with section 54.2001(d) of the Commission's rules and the Commission's directives regarding the factors to be weighed and considered in making selections.¹¹ Specifically, to select Pilot participants, the Bureau first looked at qualifying applicants' discount rate and National School Lunch Program (NSLP) percentages and prioritized funding to those with the highest percentages, consistent with section 54.2001(d) of the Commission's rules. To ensure diversity in the

⁵ See generally *Cybersecurity Pilot Program Report and Order*.

⁶ *Id.* at *14, para. 34; see also USAC, *School and Library Eligibility*, <https://www.usac.org/e-rate/applicant-process/before-you-begin/school-and-library-eligibility/> (last visited Nov. 27, 2024) (explaining the E-Rate program's eligibility requirements).

⁷ *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *14, para. 34.

⁸ See *id.* at *26, para. 63. The Cybersecurity Pilot Program portal is USAC's online account and management system for the Pilot Program. The Cybersecurity Pilot Program portal will be used by participants to submit Part 2 of the FCC Form 484, the Cybersecurity Pilot FCC Forms 470 and 471, as well as requests for reimbursement (i.e., the Pilot FCC Forms 472 and 474) and the required periodic data reporting.

⁹ *Wireline Competition Bureau Announces Application Filing Window for Cybersecurity Pilot Program and Provides Guidance for Submitting Applications*, WC Docket No. 23-234, Public Notice, DA 24-887, 2024 WL 4103406 (WCB Sep. 4, 2024) (*Cybersecurity Pilot Program FCC Form 484 Application Filing Window PN*).

¹⁰ Press Release, FCC, *FCC Sees Strong Interest in the Schools and Libraries Cybersecurity Pilot Program* (Nov. 8, 2024), <https://www.fcc.gov/document/fcc-sees-strong-interest-schools-libraries-cybersecurity-pilot>.

¹¹ See 47 CFR § 54.2001(d) (explaining that if total demand for the Pilot Program exceeds the \$200 million cap, funding will first be made available to schools and libraries eligible for a 90 percent discount, followed by schools and libraries eligible for an 80 percent discount, then 70 percent, and so on until there are no funds remaining. And, if funding is not sufficient to support all of the funding requests within a particular discount level, funding should be allocated at the discount level using the percentage of students eligible for the NSLP); *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *32, para. 73 (noting that if sufficient funds do not exist to grant all requests within a single discount percentage, remaining funds shall be allocated on a pro rata basis over that single discount percentage level); see also *supra* note 3.

participant pool, including geographic diversity, the Bureau also considered applicants' entity type, size, and location, among other things, as directed by the Commission.¹²

The selected participants listed in Appendices A and B will be required to provide more detailed cybersecurity information in Part 2 of the FCC Form 484; seek competitive bids for the eligible services and equipment for which they intend to seek Pilot Program support; and comply with the program's data reporting requirements.¹³ Selected participants will also be able to request eligible services and equipment and seek reimbursement for eligible services and equipment based on approved, fixed per-student or per-library budgets.¹⁴ All Pilot Program participants and service providers will be subject to the Pilot Program integrity protection measures, including document retention and production, gift, certification, audit, and suspension and debarment rules, as well as all other FCC rules and requirements for the Pilot.¹⁵

Selected Pilot Program Participants

In reviewing applications and selecting applicants to participate in the Pilot, the Bureau, with support from USAC, engaged in a thorough review of all qualifying applications that were submitted during the filing window,¹⁶ which included reviewing applications consistent with section 54.2001(d) of the Commission's rules and applicant responses to questions posed in Part 1 of the FCC Form 484 with an eye towards ensuring that funding is distributed as widely as possible across the United States and its territories, among other things.¹⁷ The Bureau selected participants based on responses to these questions and an applicant's discount rate and NSLP percentages, while keeping in mind the Commission's directive to target funding to: (1) the neediest eligible schools, libraries, and consortia who will benefit most from cybersecurity funding (i.e., those at the highest discount rate percentages); (2) as many eligible schools, libraries, and consortia as possible; (3) those schools, libraries, and consortia that include Tribal entities; and (4) a mix of large and small and urban and rural schools, libraries, and consortia.¹⁸ As total demand for Pilot Program funds exceeds the \$200 million cap, the Bureau prioritized selection in

¹² See *supra* note 3.

¹³ See 47 CFR §§ 54.2004(d)-(e), 54.2005; *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *25, *33, *35-37, *44, *46-48, paras. 61, 74, 79-82, 101, 107, 110-11.

¹⁴ See *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *9-12, paras. 22-29. Budgets, in turn, are subject to minimum funding floors and overall funding caps and depend on the entity type (i.e., whether the participant is a school, library, or consortia); the number of students or library sites the Pilot participant has; and the participant's non-discounted portion of the budget. See *id.*; 47 CFR § 54.2001(b). For further information on and examples of how budgets are calculated, please refer to the [Budget Examples](#). See also FCC, *Cybersecurity Pilot Program FAQs*, <https://www.fcc.gov/cybersecurity-pilot/frequently-asked-questions> (last visited Nov. 27, 2024).

¹⁵ See 47 CFR § 54.2000 *et seq.*; *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *41-44, paras. 90-100. Selected participants must remain in compliance with the Pilot rules and requirements and may be removed from the Pilot if it is later determined they are not eligible or not compliant with the Commission's rules.

¹⁶ Incomplete applications or applications that did not meet the Pilot Program's eligibility standards were automatically disqualified from review. See *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *32, para. 72. Applications submitted after the close of the application filing window were similarly disqualified from review, as were applications with generic responses and those where the applicant was ineligible or indicated an unwillingness to follow Pilot Program rules and procedures (including Pilot reporting requirements). *Id.* & n.284; see also 47 CFR § 54.2004(e)(4) (describing actions for non-compliance with the data reporting requirements of the Pilot Program); *supra* note 1 (noting that applicants that were not selected to participate in the Pilot will receive a notice from USAC explaining the reason(s) for not having been selected).

¹⁷ See 47 CFR § 54.2001(d); *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *32, para. 73.

¹⁸ *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *32, para. 72 & n.284. Consistent with the Commission's directives, applications were reviewed as a whole, and an applicant's answer to a question on Part 1 of the FCC Form 484 was not necessarily dispositive of its eligibility for the Pilot. See *id.* at *27, para. 63, n.235.

accordance with section 54.2001(d) of the Commission's rules.¹⁹ As a result, applications submitted by applicants with discount rate percentages and NSLP percentages that fell below 90% and 81%, respectively, were disqualified from review due to demand exceeding available funding and were not selected for the Pilot Program.²⁰

Consistent with the Commission's goals for the Pilot program, the selected participants represent a mix of large and small, and urban and rural schools, libraries, and consortia from various geographic areas with differing cybersecurity needs and experiences and a particular focus on low-income and Tribal applicants.²¹ Specifically, the participants selected today represent 540 school districts, 105 schools, 40 library systems, 10 libraries, and 12 consortia. Of these 707 participants, 518 (73%) are urban, 189 (27%) are rural, and 8 are Tribal.²² These Pilot participants represent all 50 states, Puerto Rico, and the District of Columbia. Of the 645 schools and school districts selected to participate in the Pilot Program, 33% were large and 67% were small.²³ Given this diverse pool of participants, we anticipate being able to gather meaningful data on how the Pilot may help protect schools' and libraries' broadband networks and data and improve their ability to address cybersecurity risks, while also assessing the costs and benefits of continuing to use universal service funds to support eligible schools' and libraries' cybersecurity needs in furtherance of the Pilot Program's goals.²⁴

¹⁹ See 47 CFR § 54.2001(d); *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *32, para. 73. However, consistent with Commission direction to ensure the distribution of funding to as wide of a geographical area as possible, the Bureau included the applicant with the highest discount and NSLP percentage rates located in Hawaii, Kansas, Nebraska, New Hampshire, and Wyoming, so that a participant from every state was included in the Pilot Program and received their full budget.

²⁰ Under the existing budget, we are unable to fully fund all requests within the 81% NSLP discount band, therefore, the Bureau has allocated the remaining support on a pro rata basis within this discount band consistent with the Commission's direction. *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *32, para. 73. Selected Pilot participants within this discount band will receive approximately 78% of their full budgets and are listed in Appendix B to this Public Notice. Notice of specific individual three-year budget amounts will be provided to all participants via letter from USAC. In the event of any withdrawals or removals from the Pilot Program, the Bureau will first seek to fully fund the Pilot participants included in Appendix B and then select replacement Pilot participants consistent with section 54.2001(d) of the Commission's rules and the Commission's directives regarding selections until funds are exhausted.

²¹ See *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *27, *32, paras. 63 ("To facilitate the inclusion of a diverse set of Pilot projects and to target Pilot funds to the populations most in need of cybersecurity support, particularly those with minimal or no cybersecurity protections today, we anticipate selecting projects from, and providing funding to, a combination of large and small and urban and rural schools, libraries, and consortia, with an emphasis on funding proposed Pilot projects that include low-income and Tribal applicants." (citation omitted)), 72 ("In addition, the Bureau and USAC should seek to select an array of Pilot participants with differing levels of exposure to cybersecurity threats and attacks, and ensuring that the selected Pilot participants include schools and libraries that currently have limited cybersecurity protections."); see also *supra* note 3.

²² The Commission received 22 applications from Tribal entities. We note that the distribution of urban and rural participants reflects the distribution of applicants with a 90% discount rate; and, thus, is lower than the distribution of urban and rural participants in the E-Rate program with the same discount percentage.

²³ Schools with a student count of 5,000 or more were determined to be large based on an average student count of 5,000 for school districts that received E-Rate funding commitments for Funding Year 2024. USAC, Open Data, E-Rate Request for Discount on Services: Basic Information (FCC Form 471 and Related Information), https://opendata.usac.org/E-Rate/E-Rate-Request-for-Discount-on-Services-Basic-Info/9s6i-myen/about_data (last visited Jan. 8, 2025).

²⁴ To help the Commission evaluate the success of the Pilot Program, the Commission adopted the following three performance goals: (i) improving the security and protection of E-Rate-funded broadband networks and data on those networks; (ii) measuring the costs associated with cybersecurity services and equipment and the amount of funding needed to adequately meet the demand for these services if extended to the E-Rate program; and (iii)

(continued....)

Other factors the Bureau considered in making selections included the distribution of funding to as wide a geographic area as possible,²⁵ the cost of the proposed Pilot projects compared to the total Pilot Program cap,²⁶ and applicants' level of exposure to cybersecurity threats and attacks.²⁷ The average three-year budget for the majority of Pilot participants is approximately \$307,000, with the Pilot Program contributing an average of \$275,000. For schools and libraries, the average three-year budget is approximately \$304,000, and for consortia the average three-year budget is approximately \$470,000. The 707 selected participants have varying degrees of cybersecurity experience. Just over 80% of selected participants indicated they have experience implementing cybersecurity protections, with approximately 23% indicating experience of three years or less, and approximately 53% indicating experience of more than five years. Nearly 40% of Pilot participants indicated they have faced a cybersecurity threat or attack within the past year.

Additional Pilot Program Requirements

Below, we outline next steps for Pilot Program participants. Each Pilot participant is required to complete the additional requirements described in this section, including seeking competitive bids for the eligible services and equipment for which they intend to seek support and submitting requests for funding; Part 2 of the FCC Form 484; requests for reimbursement; and the initial, annual, and final reports. The Bureau may provide additional information about these and any further requirements, including any additional reporting requirements imposed on Pilot participants, through the FCC and/or USAC's Pilot Program websites and other resources.²⁸

Pilot FCC Form 470 Competitive Bidding Requirements. To obtain Pilot Program support, a Pilot participant must first conduct a fair and open competitive bidding process to seek bids for the eligible services and equipment for which they intend to seek support.²⁹ To start the competitive bidding process, Pilot participants must first complete the Schools and Libraries Cybersecurity FCC Form 470 Description of Services Requested and Certification Form (Pilot FCC Form 470) on which they are required to describe their desired eligible services and equipment and must submit the completed form to

(Continued from previous page) _____

evaluating how to leverage other federal K-12 cybersecurity tools and resources to help schools and libraries address their cybersecurity needs. *See Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *44-45, paras. 101-06.

²⁵ *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *32, para. 72.

²⁶ *Id.* at *32, para. 72 (“In choosing participants for the Pilot, the Bureau and USAC should also consider the cost of the proposed Pilot project compared to the total Pilot Program cap. This does not mean that proposed Pilot projects should be evaluated based on their total project budgets, but, rather, the Bureau and USAC should seek to select an array of Pilot projects with varying costs that can all be funded within the Pilot Program’s cap.”).

²⁷ *Id.* at *32, para. 72 (“In addition, the Bureau and USAC should seek to select an array of Pilot participants with differing levels of exposure to cybersecurity threats and attacks, and ensuring that the selected Pilot participants include schools and libraries that currently have limited cybersecurity protections.”). *But see Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *32, para. 72, n.287 (“We will not eliminate proposed Pilot projects based on an applicant’s cybersecurity maturity or posture, but, rather, we will consider an applicant’s cybersecurity maturity and posture, including whether the applicant has successfully developed or otherwise implemented a cybersecurity and/or incident response plan, to select a variety of Pilot projects.”).

²⁸ *See* 47 CFR 54.2004(e)(3) (noting that the Bureau “may waive, reduce, modify, or eliminate Pilot participant reporting requirements that prove unnecessary and require additional reporting requirements that the Bureau deems necessary to the sound and efficient administration of the Pilot.”); *see also supra* note 4.

²⁹ *See generally* 47 CFR § 54.2005; *see also Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *35-37, paras. 79-82. The competitive bidding requirements for the Pilot Program largely mirror the established procedures and rules in the E-Rate program and are designed to ensure that the limited Pilot funds are used for the most cost-effective eligible services and equipment and to protect the integrity of the Pilot Program. *See Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *35, para. 78.

USAC through the Cybersecurity Pilot Program portal.³⁰ Once the form is posted to USAC's website, service providers will have an opportunity to review and submit bids directly to the Pilot participant based on the forms. As in the E-Rate program, Pilot participants are required to wait until the Allowable Contract Date (ACD), which is 28 days from the date that the Pilot FCC Form 470 is posted on USAC's website, before entering into a legally binding agreement or contract with a service provider.³¹

If, however, a Pilot participant seeks support for services and equipment purchased from a Master Services Agreement (MSA) (or an equivalent like a state master contract (SMC)) that is negotiated by federal, state, Tribal, or local governmental entities on behalf of the participant, it will not be required to seek competitive bids provided that the MSA/SMC was awarded pursuant to the E-Rate FCC Form 470 process, as well as applicable federal, state, Tribal, or local competitive bidding requirements.³² To make use of this limited exemption, a Pilot participant should submit the MSA/SMC and the corresponding E-Rate FCC Form 470 to USAC for review and approval.³³ If approved, the MSA/SMC along with its establishing E-Rate FCC Form 470, will be made available on USAC's website as a contract exempt from the competitive bidding requirements so that other Pilot participants may review and make use of these contracts where appropriate.

To the extent a Pilot participant wishes to make use of an MSA/SMC negotiated by a *non-governmental* entity, we note that the participant must submit a waiver request to the FCC within 60 days from the date of this Public Notice, along with an explanation as to why the underlying competitive bidding process is the equivalent to a government entity's process.³⁴ In addition, the waiver request must include the following:

- A description of the non-governmental entity that negotiated the contract;
- A description of the competitive bidding process that was used by the non-governmental entity, including how many bids were received;
- The factors that were used in the bid evaluation, including whether price was the primary factor in the bid evaluation process; and
- A description of the schools and libraries who will be allowed to purchase off of the contract and whether they would need to pay any fee(s) to be able to purchase off of the contract.

³⁰ See 47 CFR § 54.2005(c).

³¹ See 47 CFR §54.2005(c)(4).

³² 47 CFR § 54.2005(f); *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *37, para. 82. We emphasize that this competitive bidding exemption is limited to an E-Rate FCC Form 470 process that was or will be conducted in funding years 2023, 2024, or 2025. See FCC, *Cybersecurity Pilot Program FAQs*, FAQ 6.4a, <https://www.fcc.gov/cybersecurity-pilot/frequently-asked-questions> (last visited Dec. 8, 2024).

³³ USAC will provide additional information on the submission of exempt MSAs/SMCs on its website and in a forthcoming Cybersecurity Pilot Program newsletter.

³⁴ In response to requests to allow E-Rate-qualified master contracts to be competitively exempt for the Pilot Program, we will consider waiver requests related to MSA/SMC(s) that have been negotiated on behalf of E-Rate participants by non-governmental entities. See, e.g., Letter from Debra M. Kriete, Chairperson, State E-Rate Coordinators Alliance, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 23-234 at 2 (filed May 29, 2024); San Francisco Unified School District Express Comments, WC Docket No. 23-234 (filed July 10, 2024). The Bureau will review these waiver requests consistent with section 1.3 of the Commission's rules. See 47 CFR § 1.3 (explaining that any provision of the rules may be waived by the Commission on its own motion or on petition if good cause is shown). We provide Pilot participants with 60 days from the issuance of this Public Notice to submit a waiver request to the FCC to ensure that Pilot participants that may want to rely on approved, exempt MSA/SMC(s) may do so with sufficient time to meet other Pilot program requirements, including the submission of the Pilot FCC Form 471 and Part 2 of the FCC Form 484. Notwithstanding, we encourage Pilot participants to submit their waiver requests as expeditiously as possible.

If the waiver is granted, the MSA/SMC and establishing E-Rate FCC Form 470 will be posted on USAC's website as a contract exempt from the competitive bidding requirements so that other Pilot participants may review and make use of the contract where appropriate.

Similarly, a Pilot participant that wishes to make use of an MSA/SMC negotiated by a governmental entity that does not rely on the E-Rate FCC Form 470 process, may submit a waiver request to the FCC within 60 days from the date of this Public Notice, along with an explanation as to why the underlying competitive bidding process was equivalent to the process required by the Commission's E-Rate competitive bidding rules.³⁵ The waiver request must include the following:

- A description of the competitive bidding process that was used by the governmental entity, including how many bids were received;
- The factors that were used in the bid evaluation, including whether price was the primary factor in the bid evaluation process; and
- Confirmation that schools and libraries would be eligible to purchase off of these contracts since the contracts were not procured using the E-Rate FCC Form 470.

If the waiver is granted, the MSA/SMC will be posted on USAC's website as a contract exempt from the competitive bidding requirements for use by other Pilot participants.³⁶ To make use of one or more of these approved MSAs/SMCs, whether granted through a waiver or otherwise, a Pilot participant would then simply select the "Exempt MSA/SMC" option when completing its Schools and Libraries Cybersecurity Pilot Program FCC Form 471 Description of Services Ordered and Certification Form (Pilot FCC Form 471) through the Cybersecurity Pilot Program portal.

For Pilot participants that must seek competitive bids for the eligible equipment and services for which they seek support, we note that the Pilot FCC Form 470 will become available through the Cybersecurity Pilot Program portal on Friday, January 17, 2025 at 8 a.m. E.T. and must be completed and submitted no later than Monday, August 18, 2025 at 11:59 p.m. E.T. (i.e., 28 days before the close of the Pilot FCC Form 471 application window).³⁷ Before entering into an agreement or contract with a service provider(s), we remind Pilot participants that they must carefully consider all bids submitted and select the most cost-effective service offering with the price of the eligible services and equipment being the primary (i.e., most heavily-weighted) factor in the bid selection process.³⁸ We further remind Pilot participants and their representatives, including consultants, that they are prohibited from soliciting, requesting, or receiving gifts from a service provider participating in or seeking to participate in the Pilot and are required to conduct their competitive bidding process in a fair and open manner (i.e., all potential service providers must have access to the same information and must be treated in the same manner throughout the entire competitive bidding process).³⁹

³⁵ See *supra* note 34.

³⁶ Pilot participants will be able to use a USAC-generated Pilot FCC Form 470 for the FCC-approved MSA/SMC that does not have an establishing E-Rate FCC Form 470 when requesting funding on the Pilot FCC Form 471.

³⁷ As noted below, the Pilot FCC Form 471 application filing window will close on Monday, September 15, 2025. As such, the last day to complete and submit the Pilot FCC Form 470 will be August 18, 2025 (i.e., 28 days before the close of the Pilot FCC Form 471 application filing window).

³⁸ See 47 CFR § 54.2005(c)(2)(viii).

³⁹ See 47 CFR §§ 54.2005(a), (d) ("[A] participant in the Schools and Libraries Cybersecurity Pilot Program may not directly or indirectly solicit or accept any gift, gratuity, entertainment, loan, or any other thing of value from a service provider participating in or seeking to participate in the Schools and Libraries Cybersecurity Pilot Program. No such service provider shall offer or provide any such gift, gratuity, favor, entertainment, loan, or other thing of value except as otherwise provided herein.").

Pilot FCC Form 471 Application Requirements. To request discounts on Pilot-eligible services and equipment, Pilot participants must complete and submit a Pilot FCC Form 471 through USAC's Cybersecurity Pilot Program portal during the Pilot FCC Form 471 application filing window.⁴⁰ The application filing window for this form will open on Tuesday, March 18, 2025 at 8 a.m. E.T. and will close on Monday, September 15, 2025 at 11:59 p.m. E.T..⁴¹ As in the E-Rate program, Pilot participants will be asked to provide the following information on their Pilot FCC Form(s) 471: the recipients of services and equipment and the selected service provider(s); detailed descriptions of the services and equipment requested, including their costs and the dates of service or equipment; and certifications regarding compliance with Pilot Program rules.⁴² Pilot participants will also be required to specify whether they or their service provider will be submitting invoices for each funding request on the FCC Form(s) 471⁴³ and must submit Pilot FCC Form(s) 471 to cover the full Pilot project (i.e., the full three-year term).⁴⁴

As explained above, Pilot participants are not allowed to certify and submit the Pilot FCC Form 471 until they have waited at least 28 days after the Pilot FCC Form 470 is submitted and certified to USAC (i.e., the ACD).⁴⁵ Once a Pilot participant certifies and submits the Pilot FCC Form 471, USAC will review the form and may reach out through the Cybersecurity Pilot Program portal to inquire about information provided on the form and/or ask for supporting documentation.⁴⁶ USAC will also provide the participant with an opportunity to correct any errors on the form through a Receipt Acknowledgment Letter (RAL) or similar process.⁴⁷

Following review of the Pilot FCC Form(s) 471 and the submission of Part 2 of the FCC Form 484, USAC will issue a funding commitment decision letter (FCDL) to both the participant and the selected service provider(s) approving, modifying, or denying the funding requests. The FCDL will provide the amount of committed funding available for each request based on the Pilot participant's three-year budget, will cover the three-year term of the Pilot Program, and will include a reminder to participants that funding is dependent upon full compliance with the FCC rules. As explained further

⁴⁰ See generally 47 CFR § 54.2006; see also *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *38, para. 84.

⁴¹ See 47 CFR § 54.2006(d); *Cybersecurity Pilot Program Report and Order* at *38, para. 85 (directing the Bureau and USAC to announce and open a Pilot FCC Form 471 application filing window to speed the availability of funds to selected Pilot participants). The duration of this application filing window provides adequate time for Pilot participants to conduct competitive bidding and comply with applicable state, local, and Tribal competitive bidding requirements. See 47 CFR § 54.2005(b). Unlike in the E-Rate program, given the extended duration of the Pilot FCC Form 471 application filing window and the fixed Pilot participant budgets, the Bureau directs USAC to begin reviewing applications and issuing funding commitment decision letters for Pilot participants that have completed all requirements, including the submission of Part 2 of the Pilot FCC Form 484, prior to the close of the Pilot FCC Form 471 application filing window.

⁴² *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *38, para. 84; see also FCC, *Cybersecurity Pilot Program FAQs*, FAQ 6.1, <https://www.fcc.gov/cybersecurity-pilot/frequently-asked-questions> (last visited Nov. 27, 2024) (noting that there is no material difference in the information required between the E-Rate FCC Form 470 and Form 471 and the Pilot FCC Form 470 and Form 471).

⁴³ *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *39, para. 86.

⁴⁴ *Id.* at *38, para. 84.

⁴⁵ 47 CFR §§ 54.2005(c)(4), 54.2006(a)(2)(viii); *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *38, para. 84.

⁴⁶ See *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *38, para. 85 (explaining that the application filing window process will be familiar to most selected Pilot participants since the forms, processes, and procedures adopted for the Pilot are also used in the E-Rate program).

⁴⁷ *Id.* at *38, para. 84.

below, once a Pilot participant receives an FCDL committing funding for the eligible services and/or equipment, it may begin to submit requests for reimbursement after the receipt or delivery of the requested services and/or equipment.⁴⁸ Pilot participants will be allowed to submit service and equipment substitution change requests as needed during the three-year Pilot Program.⁴⁹

Requests for Reimbursement (Pilot FCC Form 472/FCC Form 474) Requirements. Consistent with the E-Rate program, both Pilot participants and service providers may submit requests for reimbursement using the Billed Entity Applicant Reimbursement (BEAR) form (FCC Form 472) or the Service Provider Invoice (SPI) form (FCC Form 474) (Pilot FCC Forms 472 and 474), respectively, based on the method of invoicing Pilot participants have chosen as indicated on their Pilot FCC Form(s) 471.⁵⁰ As part of the reimbursement process, Pilot participants and service providers must provide the required certifications and any necessary documentation to support their requests.⁵¹ To that end, Pilot participants and service providers are required to submit invoices detailing the items purchased with their reimbursement requests.⁵² Invoices must support the amounts requested and approved on the Pilot FCC Form 471 application and in the FCDL.⁵³

Pilot participants may begin to submit requests for reimbursement after the receipt or delivery of the requested eligible services and/or equipment.⁵⁴ Requests for reimbursement must be submitted to USAC through the Cybersecurity Pilot Program portal within 90 days after the last date to receive service,⁵⁵ and Pilot participants or service providers may request a one-time extension of the invoicing filing deadline, if the request is timely filed.⁵⁶ We remind Pilot participants and service providers that they are prohibited from requesting or receiving duplicative funding and must certify as such on their Pilot FCC Forms 472 or 474 when submitting requests for reimbursement.⁵⁷

⁴⁸ *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *37, para. 83.

⁴⁹ *Id.* at *38, para. 84.

⁵⁰ See 47 CFR §§ 54.514(c), 54.2008; *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *39, para. 86.

⁵¹ See generally 47 CFR § 54.2008.

⁵² 47 CFR § 54.2008(b); *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *39, para. 87. No other supporting documentation is required at the time participants or service providers submit their requests for reimbursement. Notwithstanding, pursuant to the program's certifications and document retention requirements, all participants and invoicing service providers must certify receipt/delivery of eligible services and equipment and that only eligible services and equipment were invoiced, as well as retain and provide upon request by USAC, the Commission (including Commission staff) and its Office of Inspector General (OIG), or any other authorized federal, state, or local agency with jurisdiction over the entity, all records related to their Pilot FCC Forms 470, 471, and 472/474 (including, for example, competitive bidding documentation and contracts) for at least 10 years from the last date of service or delivery of equipment. *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *39, para. 87; see also 47 CFR §§ 54.2009, 54.2010.

⁵³ *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *39, para. 87.

⁵⁴ *Id.* at *37, para. 83.

⁵⁵ 47 CFR § 54.2008(d). The service delivery start date for the Pilot program will be March 18, 2025 (i.e., the first day of the Pilot FCC Form 471 application filing window), and the service delivery deadline for each funding request number (FRN) will be three years after the date of the first FCDL issued. See 47 CFR §§ 54.2001(c), 54.2008(d); see also FCC, *Cybersecurity Pilot Program FAQs*, FAQ 7.5, <https://www.fcc.gov/cybersecurity-pilot/frequently-asked-questions> (last visited Dec. 8, 2024).

⁵⁶ 47 CFR § 54.2008(e) (noting that USAC shall grant an automatic, one-time 90-day extension of the invoicing filing deadline, provided such extensions are timely filed).

⁵⁷ 47 CFR § 54.2008(a)(1)(vi), (a)(2)(v); *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *42, para. 95 (stating that Pilot participants and service providers must certify on the FCC Forms 472 or 474 that they are

(continued....)

FCC Form 484 Part 2 Application Requirements. Pilot participants will use Part 2 of the FCC Form 484 to provide additional cybersecurity information beyond the general information provided in Part 1 of the FCC Form 484.⁵⁸ The information provided on Parts 1 and 2 of the form will help the Commission establish a baseline for evaluating the Pilot’s performance goals and data reporting requirements.⁵⁹ Specifically, Pilot participants will be required to provide the following information on Part 2 of their FCC Form 484:

- Information about correcting known security flaws and conducting routine backups, developing and exercising a cyber incident response plan, and any cybersecurity changes or advancements the participant plans to make outside of the Pilot-funded services and equipment.
- A description of the Pilot participant’s current cybersecurity posture, including how the school or library is currently managing and addressing its current cybersecurity risks through prevention and mitigation tactics.
- Information about a participant’s planned use(s) for other federal, state, or local cybersecurity funding (i.e., funding obtained outside of the Pilot).
- Information about a participant’s history of cybersecurity threats and attacks within a year of the date of its application; the date range of the incident; a description of the unauthorized access; a description of the impact to the K-12 school or library; a description of the vulnerabilities exploited and the techniques used to access the system; and identifying information for each actor responsible for the incident, if known.
- A description of the specific Department of Education (Education Department) or Cybersecurity and Infrastructure Security Agency (CISA) cybersecurity best practices recommendations that the participant has implemented or begun to implement.
- Information about a participant’s current cybersecurity training policies and procedures, such as the frequency with which a participant trains its school and library staff and, separately, information about student cyber training sessions, and participation rates.
- Information about any non-monetary or other challenges a participant may be facing in developing a more robust cybersecurity posture.⁶⁰

Pilot participants must answer all questions included in Part 2 of the FCC Form 484 and must submit their completed form through the Cybersecurity Pilot Program portal.⁶¹ Part 2 of the FCC Form 484 will

(Continued from previous page) _____

not seeking support or reimbursement for Pilot-eligible services and equipment that have been purchased and reimbursed with other federal, state, Tribal, or local funding, or are eligible for discounts from E-Rate or another universal service program).

⁵⁸ *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *25, *33, paras. 61, 74. To limit the amount of sensitive cybersecurity information collected at the initial application stage and to reduce the initial application burden, the Commission bifurcated the FCC Form 484 application to require a general level of cybersecurity information on Part 1 of the FCC Form 484 and more detailed cybersecurity reporting for Pilot participants on Part 2 of the FCC Form 484. *Id.*

⁵⁹ *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *33, para. 74.

⁶⁰ *See id.* Sensitive cybersecurity information contained in Part 2 of the FCC Form 484 application will be maintained on a closed system and will only be accessible by the participant or persons designated by the participant, USAC, and the FCC. *See also id.* at *25, para. 61, n.230.

⁶¹ To the extent a Pilot participant has issues with the submission of Part 2 of the FCC Form 484 application, we encourage it to reach out to USAC’s Customer Service Center at (888) 203-8100 or create a case in the Cybersecurity Pilot Program portal.

become available on Friday, January 17, 2025 at 8 a.m. E.T.,⁶² and participants have until Monday, September 15, 2025 at 11:59 p.m. E.T. to submit and certify their completed form.⁶³

Upon submission of a completed Part 2 of the FCC Form 484, Pilot participants will receive a certification acknowledgment notification from USAC to the email address(es) for the users with access rights associated with the form. Pilot participants may also expect to receive additional communication from USAC if any further information or clarification regarding the form is needed. Failure to timely submit a completed Part 2 of the FCC Form 484 and/or the Pilot FCC Form 471 will result in removal from the Pilot Program, and the Bureau will attempt to replace that participant with an applicant that was not selected for the Pilot.⁶⁴

Initial, Annual, and Final Reporting Requirements. To assist the Commission in evaluating the goals and success of the Pilot Program and provide a mechanism by which Pilot participants may evaluate and report on their cybersecurity readiness before, during, and after their participation in the program, the Commission adopted initial, annual, and final reporting requirements for Pilot Program participants in the *Cybersecurity Pilot Program Report and Order*.⁶⁵ The data gathered from these reports will be essential in helping the Commission determine whether and how to fund schools' and libraries' cybersecurity needs on an ongoing basis.⁶⁶ We now provide additional information about the timing for the submission of these reports and the specific information we expect to be provided by Pilot participants.⁶⁷

The information contained in these reports will be presumptively confidential; however, the Bureau may, at its discretion, create a version of the information that is aggregated, anonymized, or otherwise not subject to protection from disclosure under the Freedom of Information Act for public release.⁶⁸ Pilot participants must adhere to these requirements to receive and to continue receiving Pilot Program support and to retain their status as a Pilot participant.⁶⁹ In addition, failure to submit periodic reports and certify to the accuracy of the information provided in the reports may result in a referral to the Commission's Enforcement Bureau, a hold on future disbursements, rescission of committed funds, and/or recovery of disbursed funds.⁷⁰

⁶² As noted above, the Pilot FCC Form 470 will also become available on USAC's Cybersecurity Pilot Program portal on Friday, January 17, 2025.

⁶³ As indicated above, the application filing window for the Pilot FCC Form 471 will close on Monday, September 15, 2025.

⁶⁴ See 47 CFR § 54.2004(d)(5); *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *33, para. 75, n.310; see also *supra* note 1.

⁶⁵ See 47 CFR § 54.2004(e); see also *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *44, *46, *47, paras. 101, 107, 110.

⁶⁶ See 47 CFR § 54.2004(e); see also *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *47, para. 110.

⁶⁷ *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *47, para. 110 (directing the Bureau to release a Public Notice detailing the specific information to be provided by Pilot participants, additional detail regarding the timing for the submission of these reports, and to consider developing a standardized reporting form and publicizing its availability).

⁶⁸ See generally 47 CFR § 0.457(d); *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *47-48, paras. 110-11.

⁶⁹ 47 CFR § 54.2004(e)(1).

⁷⁰ 47 CFR § 54.2004(e)(4); *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *44, *47, paras. 101, 110.

Periodic Reporting Timing and Requirements. First, regarding the submission of the initial report required of Pilot participants, we note that the information provided in Parts 1 and 2 of the FCC Form 484 constitutes the necessary data to establish a reporting baseline for purposes the initial reporting requirement, and we clarify that the timely submission of these forms will satisfy this requirement. No additional information is required of Pilot participants to meet the initial reporting requirement. We remain mindful of the sensitive nature of the cybersecurity information being shared in Parts 1 and 2 of the FCC Form 484 and seek to reduce administrative burdens on Pilot participants by unnecessarily requiring additional and/or duplicative information that has either already been provided or will be provided through the submission of the annual and/or final reports.⁷¹

Regarding the submission of the annual and final reports, as explained in the *Cybersecurity Pilot Program Report and Order*, Pilot participants are required to submit each annual report no later than 60 days following the conclusion of the first and second years of the Pilot Program and the final report no later than 60 days following the conclusion of the final year of the three-year Pilot Program.⁷² The Bureau will announce when the annual reporting form has been approved by the Office of Management and Budget, and the Bureau or USAC will provide additional information regarding the deadlines for submitting the annual and final reports.⁷³ We note that the deadline for the submission of the annual and final reports will be staggered based on the issuance date of a Pilot participant's FCDL(s).

For purposes of the annual report, Pilot participants will be required to respond to questions very similar to those included in Parts 1 and 2 of FCC Form 484, plus additional questions, which will allow participants to provide further detail regarding their cybersecurity expertise and any cyber events that have taken place during the reporting period. Specifically, Pilot participants should be prepared to provide the following or substantially similar cybersecurity information, as applicable, and may be removed from the Pilot Program if they refuse or fail to do so:⁷⁴

- Information about the individual(s) completing the questionnaire, including, primary job title, whether they are a consultant, whether they are a consortium lead, contact information, and the number of years of network experience.
- Information about routine back-up practices, including whether at least one copy of the back-up is stored offline and whether the participant has ever tried to restore from a back-up (either a test or after a cyber incident).
- Information about the number of current and former participant staff, patrons, and/or students for which a school or library collects and retains records; whether the participant has a data retention policy; and how many years they keep data.
- Information about the current posture of the participant's network, such as whether there is a virtual or physical partition or separation (like a router or a firewall) between the participant's internal network (intranet) and the Internet; whether the participant's network is segmented by user type; and information about how the participant's network is managed.
- Information about the participant's advanced firewall solution, including, whether the participant's advanced firewall solution provides a report about how much network traffic is

⁷¹ See 47 CFR 54.2004(e)(3) (noting that the Bureau "may waive, reduce, modify, or eliminate Pilot participant reporting requirements that prove unnecessary and require additional reporting requirements that the Bureau deems necessary to the sound and efficient administration of the Pilot").

⁷² *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *47, para. 110.

⁷³ *Id.*

⁷⁴ The Bureau is developing these required reporting metrics for the annual reports in consultations with the Office of Economics and Analytics and federal partners. *Cybersecurity Pilot Program Report and Order*, 2024 WL 3010578 at *47, para. 110.

protected each month and the percentage of total network traffic that is protected by an advanced firewall; and whether the advanced firewall solution reports the number and type of threats (both internal and external) prevented during the reporting period.

- Information about the participant's endpoint protection, including information about the number of school-, library-, or consortium member-owned or leased end-user devices that have access to the network. Information about school-, library-, or consortium member-owned or leased owned or leased devices protected by endpoint protection, including the number of servers, and the number of end-user devices by type (e.g., Chromebook, Windows, etc.). Information about whether the participant's endpoint protection solution provides a report on the number of threats (both internal and external) prevented during the reporting period.
- Information about identity protection and authorization software or services, including, on average, the number of network users (students, library patrons, school staff, library staff) protected by identity protection and authorization software or services during the reporting period; whether all registered users of the network are protected by identity protection and authorization software or services and whether all privileged/administrative users are protected; whether the participant's identity protection and authorization system(s) report the number and type of threats (both internal and external) prevented during the reporting period; whether the participant has implemented advanced protections such as media access control (MAC) address filtering or blocking for Wi-Fi systems and whether that includes blocking specific hardware devices by MAC address.
- Information about the participant's monitoring, protection, and response system(s) solution, including, the portion of the participant's users that are protected by monitoring, protection, and response system(s); whether the participant's monitoring, protection, and response system(s) solution provides a report on the number of attempted attacks (both internal and external) prevented during the reporting period; whether the participant's monitoring, protection, and response system(s) report the number and type of attack, (including numbers for malware; viruses; spam; ransomware; distributed denial-of-service attacks; insider/privilege misuse; email and web security threats (e.g., phishing, password spraying, credential stuffing, etc.); data compromise and loss; or any other similar threats/attacks); whether the participant asks school and/or library staff and/or students and/or library patrons to report potential/suspected phishing attacks, and if so, information on how suspected phishing attacks are reported; whether the participant conducted any test phishing attacks with school or library staff or students/library patrons to test their ability to identify phishing emails during the reporting period, and if so, information on the percentage of test attacks that were handled correctly.
- Information about system outages, such as ransomware, distributed denial-of-service (DDoS), or other network-disabling attack; information about the percentage of the participant's annual overall budget that is spent on IT and cybersecurity; information about whether if the participant were to experience a network-disabling cyberattack, would the school or library need to close for the duration of the outage, and if so, for how many days; information regarding whether services hosted on-premise (e.g., email, student information system) would be affected by a network-disabling attack; information about the number of school days lost to a network-disabling attack during the reporting period; information about the estimated cost of a make-up school day if a day is lost to a cyberattack-caused network outage.

Pilot Participant Withdrawal

We expect applicants selected to participate in the Pilot Program will be committed to participating for the entire three-year term of the Pilot; however, we realize that some may, for various reasons, need to withdraw from participation in the program. Although we do not anticipate this to be the

case for the vast majority of participants, to ensure the greatest possible disbursement of Pilot Program funds and minimal disruption to the program, we establish a process by which participants may withdraw from the Pilot without potential enforcement action and other qualifying applicants can be offered an opportunity to replace the withdrawing participant. Accordingly, we note that participants selected to participate in the Pilot via this Public Notice will have until July 1, 2025 to withdraw from the program by contacting the Bureau via email at CyberPilot@fcc.gov and submitting a Letter of Withdrawal, which must be posted to the Commission's [Electronic Comment Filing System \(ECFS\)](#) under Docket Number WC 23-234.⁷⁵ Once the Bureau receives a withdrawal request, it will send a separate acknowledgment letter in response to the request, which will also be posted to ECFS along with the Letter of Withdrawal. A replacement participant and/or participants will then be selected consistent with section 54.2001(d) of the Commission's rules, using the same selection criteria and process explained above.⁷⁶

Replacement participants will be informed of their selection via a letter from USAC and will have two weeks from the issuance date of the letter to confirm their participation in the Pilot through the Cybersecurity Pilot Program portal. Should a replacement participant choose not to participate in the Pilot or fail to respond to the letter within two weeks, an additional replacement participant(s) will be selected and contacted through the process described above until the full \$200 million overall Pilot Program budget has been obligated. The Bureau and/or USAC will provide additional information to applicants that are selected as replacement Pilot participants to assist them with participating in the Pilot Program.

Additional Information and Resources

Pilot participants should continue to regularly check the FCC and USAC's Cybersecurity Pilot Program webpages for important information and updates regarding the program and next steps, as well as review the outreach and training materials provided by the Commission and USAC as they prepare for competitive bidding, submitting requests for funding, invoicing, and data reporting. In particular, we encourage Pilot participants to make use of these and other resources:

- [FCC's Cybersecurity Pilot Program Website](#)
- [Cybersecurity Pilot FAQs](#)
- [USAC's Cybersecurity Pilot Program Website](#)
- [Upcoming USAC Webinars and Trainings](#)

For further information regarding this Public Notice, email CyberPilot@fcc.gov. You may also visit <https://www.fcc.gov/cybersecurity-pilot-program> to learn more about the Schools and Libraries Cybersecurity Pilot Program or click [here](#) to sign up for USAC's Schools and Libraries Cybersecurity Pilot Program Email List. Pilot participants and service providers can also contact the USAC Customer Service Center with questions at (888) 203-8100, Monday – Friday, from 8 a.m. to 8 p.m. E.T., or submit a customer support request through the Cybersecurity Pilot Program portal.

- FCC -

⁷⁵ Pilot participants selected via this Public Notice will have until July 1, 2025 to withdraw from the program in order to give those participants that will replace them with sufficient time to comply with other program requirements, including conducting competitive bidding and submitting the Pilot FCC Form 470 and Part 2 of the FCC Form 484.

⁷⁶ We note that as many replacement Pilot participants as possible will be selected to displace the budget of the withdrawing participant(s).

APPENDIX A

Selected Pilot Program Participants

The Commission makes the following selections of 681 eligible schools, libraries, and consortia as participants in the Schools and Libraries Cybersecurity Pilot Program. Pilot Program participants listed here represent entities with a 90% discount rate and an NSLP percentage of up to 82%.¹

BEN	Applicant Name	Applicant Type	State
